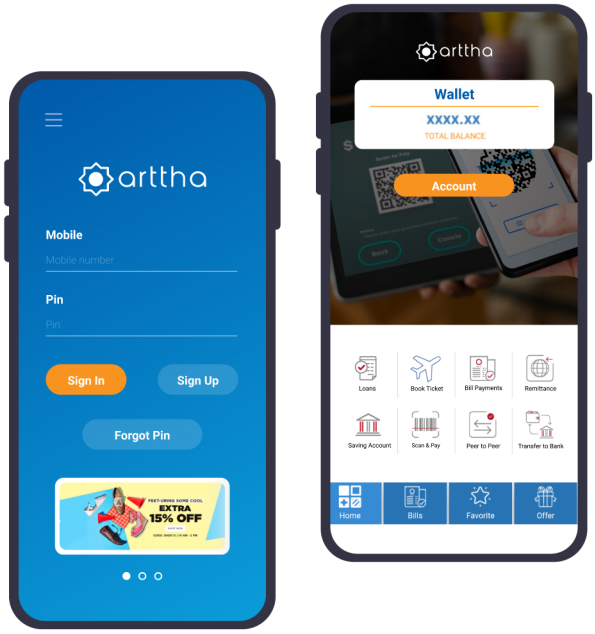
Digital Bank in a Box!



Arttha's digital banking solution empowers banks to create highly differentiated virtual banking experiences and seamlessly respond to the ever-evolving digital needs of their consumers. Strengthen your digital relationship with customers by building tightly integrated digital touchpoints and drive deeper consumer engagements. Upgrade your bank to effectively serve, continuously delight and digitally engage the smart consumer of today with the trusted, flexible, and future-proof digital banking solution by Arttha.

Get A Digital Edge in Banking with Arttha!

Arttha digital banking solution empowers banks to deliver a hyper-personalized experience, enhance customer value, and profitably transition to the digital age. Arttha's configurable platform seamlessly integrates with the existing legacy systems and allows banks to seamlessly launch innovative products and services to cater to the changing customer needs. The Bank-in-a-Box solution prepares banks for increased profitability besides providing their customers an experience beyond the traditional branch banking. It also adds value in the entire ecosystem with open API Banking that allows banks to collaborate with the fintech players and cultivate an interoperable ecosystem of innovation around customer data.

Why Choose Arttha's Digital Banking Solution?

Digital-only Banks

Automated workflows and paperless onboarding allow banks to launch digital-only banking.

Card-less ATM

Innovative feature that enables card-less ATM withdrawals.

ATM-based Remittances

Allows a user to send and receive money instantaneously at a nearby ATM.

Multi Tenancy

Facilitates financial institutions to avail financial services on a hosted model.

API Banking

Open APIs enable banks to integrate their products and services with third-party applications.

SMS Banking

Unique SMS channel allows a mobile app to be used without mobile data using underlying SMS channel.
